Rotary Sprayer Cleans Tanks Mechanically

Now, with the new Oakite Rotary Sprayer placed *inside* tank trucks or holding tanks, you can clean every inch of interior surface merely at the turn of a valve. A simple, inexpensive, one-man job—*and the man works outside the tank.* One milk plant, for example, reports that it can now clean a 1500-gallon tank in just ten minutes!

For details write Oakite Products, Inc., 38C Rector St., New York 6, N.Y.
